Dear colleagues,

We are pleased to invite you to the Third DISens Symposium that will take place on Thursday, May 19, 2005. The symposium will start at 13.30 in the Aula of the Delft University of Technology, Senaatszaal, Mekelweg 5, 2628 CC Delft.

The topic of this symposium is Biomedical Sensors, an area of large interest to the sensor community and widely addressed within the Delft University and DISens. Next to presentations illustrating related research activities currently carried out at the Delft University, other important related issues are addressed by experts from other Universities. In this way a broad view of the state of the art in this very relevant field will be given and the issues that need to be addressed by the scientific and industrial community will be discussed.

Programme DISens symposium Biomedical Sensors

- 13.30 Welcome, registration and coffee
- 13.50 Overview Biomedical Sensors, *Paddy French, Delft University of Technology*
- 14.10 Sensing in Surgery, *Jenny Dankelman, Delft University of Technology*
- 14:35 Biomedical research in Delft, *Jacob Fokkema, Rector Magnificus Delft University of Technology*
- 14.50 DNA-Microarray Analysis, *Jean-Marc Daran, Delft University of Technology*
- 15.10 Bio Compatibility, *Kees Ligtoet, Med. Fac. University Utrecht*
- 15.30 Coffee
- 16.00 Smart Pacemakers, *Wouter Serdijn, Delft University of Technology*
- 16.20 Implantable Sensor Systems, *Bob Puers, K. University of Leuven*
- 16.40 Ultra Sound Sensoren, *Ton van der Steen, Erasmus University Rotterdam*
- 17.00 Closure and drinks

Yours sincerely,

Prof.dr. P.M. Sarro
Scientific director DISens

Prof.dr.ir. J.H. Huijsing
Managing director DISens

Please register by fax (015-2785755) with this letter before 12th May 2005.
