

The ICMCC Event 2005
June 1-3, 2005
NCC The Hague, The Netherlands

The ICMCC Event is the leading conference on medical and care compunetics (ICT and networking).

Speakers of the plenary session on June 2 will a.o. be Dr. Winnie Tang (CEO of ESRI, Hong Kong) and Mike Lightner (president-elect IEEE).

We offer a great variety of symposia, with contributions from the USA, UK, Spain, Germany, Belgium, Croatia, Romania, India, Israel, The Netherlands.

The full time scheme of the sessions if available on the website, www.icmcc2005.com.

We also introduce this year the ICMCC Challenge, where we actively seek partners for a large project on information exchange between east and west about HIV and TBC.

Overview of symposia:

- HIV and ICT, Breaking the barriers (Challenge).
- In this symposium we will be looking at some examples on how HIV and ICT come together. But above all we are looking for possible partners in a large project with Health Connections International that wants to set up a web based information exchange between the East and the West. For this application we look for partners who can help to set up on-line (semi) real time translation facilities.
- This symposium will take place on June 3.
- Virtual Hospitals
- Together with the Charité Hospital in Berlin ICMCC organizes (one of) the first discussion symposia in Europe on the concept of virtual hospitals. This discussion will lead to a white paper.
- This symposium will take place on June 1.
- E-Health
- In a large discussion symposium, that will lead to a white paper as well, we want to examine the implications and practical constraints to achieving more effective, "joined-up" care service delivery through better use of ICT.
- This symposium will take place on June 2-3.

Other symposia:

- EC e-health projects
- Telehomecare
- Patient empowerment
- Imaging
- Knowledge/Information management
- Standardization

Please inform your colleagues about this event!
Early registration closes May 2, 2005.

For detailed information please go to www.icmcc2005.com.

The ICMCC Event is the annual platform of the International Council on Medical and Care Informatics, ICMCC (www.icmcc.com)
